7. TREASURER’S REPORT

R. Wirshafter reported on CVEC’s Financials as of December 31, 2019. He stated that as CVEC is 6 months into the FY20 the expenses are under the budgeted amount while there is some delay with collections. L. Argo added that tax collections present some challenges. It was noted that R. Collins was instrumental with communicating with Orleans School District in reference to payment delays. L. Argo reported that CVEC under the guidance of Glivinski & Associates is changing the way the invoice date is reflected by adding the “processing date”, which is the date based on the financial cycle rather than the electricity production period. There were several questions concerning aging summary. It was noted that property tax transactions often “run” behind the schedule. The idea of electronic payments was brought up, but ultimately dismissed as several members reported that their respective towns prefer to have a “paper trail”.

C. McLaughlin joined in at 9:50 a.m.
8. DISCUSSION AND POSSIBLE VOTE ON CVEC CONTINUING EFFORTS TO REVISE STATE LEGISLATURE REGARDING PROPERTY TAX LAW AND SOLAR FIELDS’ EXEMPTIONS

L. Cakounes briefed the members that when the commercial development builds municipal solar project, the equipment is the subject to the property tax. In the contract, the pass-through transaction was included, allowing the developers to be reimbursed by towns through CVEC as a “middle body”. He continued saying that this Board asked the state to revise state tax law for public property regarding solar fields. The legislature was filed and is currently in House under review. He added that some of the towns were not in favor of the legislature the way it was written. The language specifying “local option” was added giving freedom to individual towns to make the decision on their own. J. Rand informed the Board that after speaking to Senator Julian Cyr’s office and consulting with Massachusetts Municipal Association (MMA), it was agreed that the possible way to change the language in the new legislature is to provide an “opt-in/out” choice.

C. McLaughlin moved the Board to authorize the Executive Committee to pursue the support of Massachusetts Municipal Association tax bill with specific language to address "opt-in/out" choice, seconded by S. Gavin and voted by roll call as follows:

L. Cakounes gave a brief background information about "Lease only" projects. He reminded the members that the Board voted an administrative fee of $2,500 at the Annual Meeting on September 26, 2019 for CVEC to charge towns for the services that CVEC provides in relation to the “Lease-only” projects. He added that after further evaluating of the fee amount, it was discovered that the sum is not adequate and does not cover administrative expenses incurred by the CVEC. The new suggested amount is $3,125. There was a brief discussion about the administrative fee and the services CVEC is offering.

14. **DISCUSSION AND POSSIBLE VOTE TO REVISE CURRENT PACKAGE OF ANNUAL INFORMATION AND UPDATE MATERIALS DELIVERED TO MEMBERS AT CLOSE OF EVERY FISCAL YEAR**

R. Toole brought forward Cape Light Compact annual report and asked if CVEC can do similar report format. J. Rand noted that West Tisbury cannot put CVEC’s report on the town’s website due to the format issues. L. Cakounes said that Harwich had similar experience and added that the report should be easily transported into town’s Annual Report. J. Rand suggested developing a less visually appealing report format to be distributed to towns for upload. R. Beaty inquired if each town member receives a customized report. L. Argo reported that at present time CVEC produces one report for all the towns. She added that this year CVEC appeared at member towns’ Board of Selectmen meetings to present “individual” reports. The Board reached consensus that starting next year, CVEC will produce an annual report in the format suitable for the towns’ upload.

15. **DISCUSSION ON RESPONSIBILITIES OF CVEC DIRECTORS AS REPRESENTATIVES FOR THEIR TOWNS**

L. Cakounes reminded the members that their responsibility as Directors is to report to their towns Selectmen and bring back any concerns. He suggested Directors appear at least once a year in front of the Selectmen and deliver the update/report. R. Beaty noted that other than L. Argo delivering the report in front of the Barnstable County Commissioners, to his knowledge, no other appointed delegate brought up any updates. Several Directors suggested delivering an update as a public comment. L. Cakounes strongly disagreed and added that per Open Meeting Law rules, public comment prohibits deliberation. Instead, he suggested securing a specific item on Agenda.

16. **DISCUSSION AND POSSIBLE VOTE ON FLUID CONTAINMENT STRUCTURES FOR ALL CURRENT AND FUTURE PROJECTS, INCLUDING BATTERY STORAGE**

C. McLaughlin reported to the members that Barnstable became aware that Eversource installed the dielectric fluid containers with the capacity to hold 10 thousand gallons of liquids at Mary Dunn Road in Barnstable. He continued saying that Eversource proposed installing one more container of the same size. Barnstable is proactive in getting the containment for the fluids to prevent ground water contamination. L. Cakounes confirmed that none of those projects are CVEC’s projects and said that C. McLaughlin’s update is informational. He encouraged the Directors to check back with their towns on dielectric fluid containment situation in their area.

17. **DISCUSSION AND POSSIBLE VOTE ON INVERTERS’ DIELECTRIC FLUIDS PROJECT EXAMINATION**

L. Argo reported that, as was required, CVEC reached out to the Barnstable Airport project developer. The developer informed CVEC that they had the coolants similar to the one used for air conditioners. The developer could not provide inquired Material Safety Data Sheet (MSDS) and reported that to their knowledge MSDS for the coolants does not exist. C. McLaughlin disagreed with developer’s claim. He reported that Barnstable will prepare either an ordinance or work with Board of Health on implementing a MSDS protocol that will instruct developers to provide MSDS for any coolants. L. Cakounes responded that when Board of Health’s regulations are available, he will be happy to reach out to towns and help formulating by-laws. L. Argo stressed the importance of avoiding false associations as CVEC’s existing installations with inverters are different to transformers used by Eversource. The members agreed to raise towns’ awareness of a potential problem. C. McLaughlin suggested writing a resolution demanding developers provide MSDS
sheets. It was agreed that C. McLaughlin put together such a resolution for the CVEC Board to review. L. Cakounes added that some CVEC installations with the battery component already have containment in place. It was agreed to look into environmental insurance coverage.

18. UPDATES ON:

A) BATTERY ENERGY STORAGE SYSTEM

L. Argo reported that battery developer Ameresco produced environmental concerns materials for Battery Energy Storage System (BESS). She said that she does not feel equipped to make any comments on the report, and suggested town environmental and planning boards to review it. She continued saying that BESS feasibility study is finished. The fluid containment issue was brought up again by several members. It was suggested to have a peer review of containment measures.

B) PV/STORAGE INITIATIVE ROUND 4

L. Argo reported that interconnection studies are currently in works. She suggested calling CVEC’s office to find out individual town interconnection study status.

C) PV/STORAGE INITIATIVE ROUND 5

L. Argo reported that the contractor Select reviewed the contact and sent a “redlined” version back to the CVEC. She added that the contract is going to the BCK Law for review.

D) CHANGE IN OFFICE SPACE

L. Argo reported that CVEC moved into a new larger and better ventilated space next door to the old office. The new rent amount of $1,000 including maintenance was approved by Executive and Finance Committees.

E) NEXT FULL BOARD MEETING

The next CVEC Full Board meeting was set for Thursday, March 26, 2020 at 9:30 a.m.

19. PRESIDENT’S REPORT

Pres. Cakounes informed the members that he met with an engineer to inspect structural issues with the roof of the Community building in Provincetown. He added that the situation was assessed, and the developer will ratify the problem. Additionally, Pres. Cakounes reported meeting with Brewster Town Administrator and Assistant Town Administrator to discuss the inverters issue.

20. DIRECTORS’ REPORTS

L. Argo reported that there was recent publication about the CVEC in Cape Cod Times and encouraged Directors to read it. She continued with updates on the CVEC EV’s and charging stations initiative. L. Argo informed that Martha’s Vineyard Science Fair organizers reached out to CVEC and invited CVEC members/staff to participate in the fair in the capacity of a judge. L. Argo invited those interested to take part in the fair to contact CVEC’s office. C. Hanson reported that Brewster applied for Green Communities. He said that Brewster project experienced some problems with inverters and was displeased by poor communication with Greenskies O&M team. C. Hanson added
that the cause of the problem is likely due to animals eating wires. West Tisbury reported completion of the first round of the Green Communities process. J. Rand added that West Tisbury is pursuing the securement of two paid chargers at the library. Provincetown reported dealing with the roof solar panel problem, as previously mentioned by the President. A. Prince invited the members to attend Eastham town meeting in March at which the Adder presentation will be delivered. He added that EV’s and charging stations are to be discussed at the meeting. Chatham reported that the town got designated as the Green Community.
